

## IT'S PARTY TIME!

“Come down and hang out with us”

**Everyone knows how kids love to climb, so join us for the most unique and exciting birthday party your child will ever have. Sit back, take pictures, and let us do the entertaining. The Cave takes birthday parties to a new level where children will experience something so different and exciting that they'll talk about it for months to come!**

Designed as a fun introduction for the complete beginner each party can be either one or two hours of fully supervised climbing excitement for children aged 5-12 with another half hour at our Base Camp chill-out area for cakes, drinks and to talk about the incredible fun they had at the Cave.

Party goers will have the chance to get to the top of our six metre high climbing wall and play games designed specifically for novice climbers.

To get maximum enjoyment climbers should wear trainers and long trousers. It is also advisable to wear a number of layers of top clothing such as t-shirts, jumpers/sweatshirts and, on very cold days, a lightweight topcoat as the Cave is slightly open to the elements.

“Why just kids?” Good question! The Cave also offers birthday parties for people aged 13 and over; it's a cool way to gather together with friends, have some fun, share a challenge and celebrate someone's special day!

## Safety First

Party organisers should be aware that climbing can be a dangerous sport and for this reason everything we do at the Cave is done with your party's safety in mind. Youngsters will be expected to adhere to our house rules but having taken that into account you can be sure that your time at the Cave will be fun.

NOTE: For safety reasons the maximum ratio of climbers to instructors is 10:1. Therefore, if your party group exceeds this number another instructor will be provided at additional cost (see price list).
